## **eScript One InQuiry Search All – Faxes Update Release Notes**

## What's New?

DeliverHealth is pleased to announce an update to the Manage Faxes and Pending Faxes searches in the Search All tab of New InQuery. Upon loading the search pages, the Advanced Search window will open, prompting users to enter search criteria. Data will be retrieved when the user submits the search. This update will reduce the initial load time of the search pages and enhance the overall performance of New InQuery.

### User-Initiated Search

Search parameters are now required in the Search All **Manage Faxes** and Pending Faxes searches. Users will be prompted to enter search criteria prior to data being returned.

If the Advanced Search window is closed without submitting a search, the page will be empty. Click on Advanced Search to enter criteria and submit a search. The fewer criteria submitted results in more data, but longer load times. More refined searches are encouraged. After search results have been returned, additional filtering can be applied in the text box, or the Advanced Search window can be reopened to add more search criteria.

The screenshot displays the 'Faxes' management interface. At the top, there is a search bar with a magnifying glass icon and a link to 'Advanced Search'. Below the search bar, there are controls for 'Bulk Actions', 'Results: 3', 'Default Layout', 'Choose Columns', and 'Results per page: 50'. The main content is a table with the following columns: Status, Patient ID, Patient Name, Author, Fax Recipient, Fax Number, Date Created, Date Faxed, Error Description, and Actions. The table contains three rows of data, all with a status of 'Queued' and a date created of '1/17/2024 11:55 AM'. The first row is for patient 'ERIK FROMM', the second for an unnamed patient, and the third for 'NUMBERS PARKINSON'. Each row has a 'View Transcription Info' link in the Actions column.

Status	Patient ID	Patient Name	Author	Fax Recipient	Fax Number	Date Created	Date Faxed	Error Description	Actions
Queued	5271150	ERIK FROMM	Demonstration User	Auto Fax	6087294648	1/17/2024 11:55 AM			View Transcription Info
Queued			Demonstration User	Auto Fax	6087294648	1/17/2024 11:55 AM			View Transcription Info
Queued	3507	NUMBERS PARKINSON	Demonstration User	Auto Fax	6087294648	1/17/2024 11:55 AM			View Transcription Info
