eScript One InQuiry InVision Authentication Audit Report Updates Release Notes

What's New?

DeliverHealth is pleased to announce the release of updates to the InQuery InVision **Authentication Audit** report. New grouping options and columns have been added, as well as a change to the label and logic for the "Include Unsigned" option.

New Grouping Options

Two new grouping options have been added to the report parameters. In addition to the original grouping options of Clinician, Date Available, Patient Name, and Status, the report can also be grouped by Transcription ID and Workflow Folder.

The screenshot displays the configuration page for the 'Authentication Audit' report in the InVision system. The top navigation bar includes 'Home', 'Search All', 'Workflow', 'Problem List', 'Services', 'InVision', and 'Log Out Super Admin'. Below the navigation, there are tabs for 'Reports', 'Scheduled Reports', and 'Saved Reports'. The main content area is titled 'Authentication Audit' and includes a brief description: 'This report is used to see what transcriptions are waiting to be signed, and to get statistics on how long transcriptions are waiting in provider's folders for signature.'

The 'Report Parameters' section contains the following fields:

- Start Date * (calendar icon)
- End Date * (calendar icon)
- Clinician (dropdown menu, currently set to 'All')
- Include only Signed (checkbox, currently unchecked)
- Group By (dropdown menu, currently set to 'Transcription ID')
- Then Group By (dropdown menu, currently open, showing options: None, Clinician, Date Available, Patient Name, Status, Transcription ID, Workflow Folder, None. 'Workflow Folder' is highlighted)
- Then Group By (dropdown menu, currently set to 'None')
- Then Group By (dropdown menu, currently set to 'None')
- Then Group By (dropdown menu, currently set to 'None')
- Then Group By (dropdown menu, currently set to 'None')
- Then Group By (dropdown menu, currently set to 'None')
- Hide Details (checkbox, currently unchecked)
- Select Time Zone (dropdown menu, currently set to 'MTSO Time Zone')

The 'Report Schedule' section contains the following fields:

- Schedule Name * (text input, value: 'Authentication Audit')
- Format (dropdown menu, currently set to 'PDF')
- Active (checkbox, currently checked)

At the bottom of the form, there are 'submit' and 'reset' buttons.

New Data Columns

Two additional data fields have been added to the report output: Transcription ID and Workflow Folder. The Workflow Folder field displays which folder the job is in at the time the report runs.

Changes to “Include Unsigned” Option

The “Include Unsigned” option has been renamed to “Include only Signed”. When this option is checked only jobs that have been approved by the dictator and are awaiting signature from the authenticator, or jobs that have been completed in the given date range will be returned. When unchecked, unsigned and signed jobs will be returned.

Application Requirements

- Operating system: Windows 10 or Higher
- Web Browser: Chrome, Edge, Firefox
- RAM: 1 GB or higher
- Hard Drive Free Space: 1 GB or higher
