**Updates to Turnaround and User Listing Reports, Bug Fix for Dictation Count & Types Report**

**Release Notes**

## What's new?

DeliverHealth is pleased to announce several updates to InQuiry's **Turnaround** and **User Listing** reports, as well as a bug fix for the **Dictation Count & Types** report.

## Turnaround Report

The Turnaround Report includes new columns for document type TAT and MT Name, new multiselect parameters, and additional grouping/sorting.

### Turnaround Report – New Columns

- Added the document type's assigned TAT on the report as a column called 'Target TAT'. (As an example, this new column is helpful for grouping all 4-hour TAT doc types together for analysis).
- Changed the name of the 'Hours' column to 'Actual TAT'.
- Added an 'MT' column showing Lastname, Firstname.

### Turnaround – Parameter Updates

- Added the ability to select multiple **Locations** when running the report.
- Added the ability to select multiple **Document Types** when running the report.
- Added 'Target TAT' to the 'Group By' section.

For multiselect parameters, 'All' will be selected by default. To choose specific options, de-select 'All', then check which options to include.

#### Turnaround Report

This report will show the turnaround time taken to return a report. The TAT is determined from the date the dictation was received adjusted based on configured TAT hours.
