## Release Notes

# What's new?

DeliverHealth is pleased to announce several updates have been made to the **Transcription Comments** report in InQuiry > InVision.

## Transcription Comments Report - Updates

- Added the ability to select multiple **Locations** when running the report.
- Added the ability to group results by Clinician, Comment Tag, Department, Document Type, and Location.
- Fixed an issue where the comment tags were not visible when running the report as a CSV file.

### Multi-select Locations

**Transcription Comments**

This report will show any transcription within the time frame specified that have a 'comment' attached. Comments are used by the transcription company or clinician to bring information to the attention of the user viewing the transcription. With this report, a user is able to see all comments at one time.
