InCommand InVision Reports

**New Language Access Usage Report and
Turnaround Report Updates**

Release Notes

What's new?

DeliverHealth is pleased to announce a new **Language Access Usage** report is available, as well as an updated **Turnaround** report (InCommand > InVision).

Language Access Usage Report

This report shows the number of sessions (calls), names of interpreters, and length of each session for a given date range. The 'Language Access' feature is available for users of the eScription One mobile apps. If you are interested in this feature, please contact your DeliverHealth representative.

Language Access Usage Report						
<i>All times are in the time zone of "Central Standard Time"</i>

<i>Client</i>	<i>Clinician</i>	<i>Patient</i>	<i>Language</i>	<i>Interpreter</i>	<i># of Sessions</i>	<i>Session Duration</i>
LanguageAccess01	LA-01, User	Dawn Smith	Bangla	Lalit	1	00:00:18
Totals for LA-01, User					1	00:00:18
Totals for LanguageAccess01					1	00:00:18
Grand Total					1	00:00:18

Report Columns

The new report includes the following columns: Client, User, Patient Name, Language, Interpreter, number of sessions and session duration. Data will be grouped according to how the report is configured.

Report Parameters

To configure the report, use the parameters below:

- Enter a Start and End Date.
- Choose to report on 'All' or use multi-select to choose specific Clients, Languages, and Clinicians for the report. For these parameters, '**All**' will be selected by default. To choose specific options, de-select 'All', then check which options to include.

- Select how the results will be grouped. Options are: Client, Clinician, Interpreter, Language, Patient, and None.
- Check 'Hide Detail' to see just a report summary showing the number of sessions and session duration, according to the selected 'group by' parameters.

Report Columns

- Added the document type's assigned TAT on the report as a column called 'Target TAT'.
- Changed the name of the 'Hours' column to 'Actual TAT'.
- Added an 'MT' column showing Lastname, Firstname.
- Added a TID column in all formats of the report.

Report Parameters

- Added the ability to select multiple 'Locations' and 'Document Types' when running the report.
- Added 'Document Type' and 'Target TAT' as grouping options.

New multiselect parameters:

Turnaround

This report will show you a turnaround time for each transcription based on the TAT configured for your client.

Report Parameters

Client	All
Location	<input checked="" type="checkbox"/> [Empty field] <input checked="" type="checkbox"/> All
Document Types	<input checked="" type="checkbox"/> [Empty field] <input checked="" type="checkbox"/> All

New grouping options:

Group by	Client
Then Group by	None
Then Group by	Client
Then Group by	Document Type
Then Group by	Location
Then Group by	Target TAT
